### Navigation

Once logged into Infinite Campus, you will see a new log in screen. The home page still displays with Year and School to the right on the green IC banner. Select the down arrow or school and the year and school will display dropdowns to the left.

To the right on the green toolbar is the bell icon utilized for Notifications. To the right of the App Switcher is Help, and next to Help is the Log Off icon.

District Announcements are announcements of interest to the entire District. School Announcements, those items specific to the school, and Process Alerts, are in the center of this page.

See below as your Infinite Campus log in screen will now look different.

The Navigation Pane to the left of the main working area of the screen allows the user to navigate different modules of the IC program. Two components of the Navigation Pane are the Instruction drop down and Instruction, which is used to search for a student.

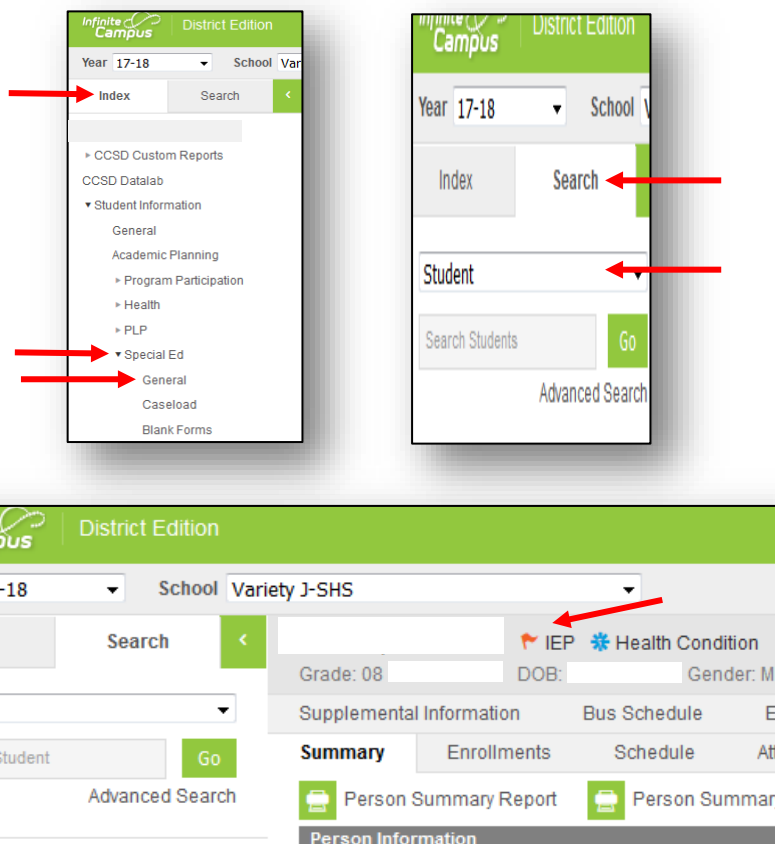

## Special Education Module

### Searching for a Special Education Student

Path: Student Information >Special Ed>General

To search for a Special Education student in Infinite Campus, you must follow this path: **Student Information > Special Ed > General**. The Search tab will be highlighted. On the dropdown, select the search criteria based on user rights. Here it's demonstrated using Student.

Input the last name or the first letter of the last name and select **Go**. A list of names will appear on the left. If the name is in **red**, this means that that student does not have an active enrollment. If the name is in black, the student is enrolled in your school. Select the student's name. Once you have selected the student, the right side of the screen will display the Special Ed tab and information. You should see an **orange** flag to the right of their name, if they are in Special Education.

## Different Ways to Search

- Choose a specific school of All Schools in the School dropdown at the top of the screen.
- Navigate to the Special Ed Module.
- Under the Search tab, select Student in the drop list.
- Enter a last name of the student or at least the first few letters of the last name.
- If you selected a specific school, it will pull students with the last name at that school only.
- If you selected All Schools, it will pull students with that last name in the entire district.
- Advanced Search: This allows a user to search the Student area. You can search by many different criteria.

### All People

- Choose a specific school of All Schools in the School dropdown at the top of the screen.
- Navigate to the Special Ed Module.
- Under the Search tab, select All People in the drop list.
- Enter a last name of the student or at least the first few letters of the last name or a student number.
- It will pull people with that last name in the entire district.
- If you used a student number, it will pull all students with those numbers in their student number.
- Advanced Search: This allows a user to search the Census area. You can search by many different criteria.

## Summary

Path: [Student Information](#) > [Special Ed](#) > [General](#) > [Summary](#)

## Team Members

Path: Student Information > Special Ed > General > Team Members

Under the Team Members tab, you will find the following links:

### Find & Link New Team Member

Allows users to assign Team members in IC to a student's IEP Team. Will show all individuals listed in Infinite Campus who have a connection to the student, either through the student's household, their class schedule, or staff members at school who would work with multiple students such as the school principal and the school counselor. Using this tab to add a team member will allow the user to build a caseload and get process alerts. *(Only the Case Manager role gets process alerts.)*

### Enter New Team Member

Allows users to assign Team members outside of IC to student's IEP Team. Using this tab will not allow the user to build a caseload or get process alerts. CCSD does not use this tab.

### Fetch Classroom Teachers

Allows users to add all of the student's teachers to the team all at once.

### Print Active Only

Allows users to print active members of the IEP Team. Prints the current members of the IEP Team (*Their names will be in BOLD*).

### Print All

Allows users to print all members associated with the students' IEP. Prints past or future members associated with the student's IEP.

The screenshot shows the 'Team Members' tab selected in a navigation bar. Below the navigation bar, there are four buttons: 'Find & Link New Team Member', 'Enter New Team Member', 'Print Active Only', and 'Print All'. A red box highlights these four buttons. Below the buttons is a 'Team Member Editor' table with the following data:

Start Date	End Date	Title	Name	Role
12/09/2016			<b>GRAUNITZ, TERRI</b>	<b>Case Manager</b>

12/06/2016	06/08/2017	Teacher	GRAUNITZ, TERRI	Read-Only

At the bottom of the interface, there is a button labeled 'Fetch Classroom Teachers'.

## Assigning Roles in Infinite Campus

Different roles can be assigned to team members. For Case Managers, you can leave the end date blank until the student gets a new Case Manager. There cannot be more than one user with the Case Manager role. To differentiate between people with the same role, you can update the Title. Teachers will have an end date starting when the student is no longer in their class. All other members can add an end date when they are no longer a member of the team.

### Roles:

- **View Only** – Allows the user to know that there is an IEP Plan
- **Read Only** – Allows the user to read the contents of the IEP Plan. Special Education forms are not visible with this role
- **Write** – CCSD does not use this role
- **Advisor** – CCSD does not use this role
- **Service Provider** - Provides a related service to student\*
- **Case Manager** – This role is for the Case Manager\*

\*Service Provider and Case Manager roles are the ONLY roles that can create a caseload! The Case Manger role is the only role that can get process alerts. There can only be one Case Manager role!

### Title Field:

To identify the difference between team members with the same role, select the team member you want to edit, update the Title field (ONLY use the abbreviation) and select Save:

- Case Manager
- SEIF
- SLP
- PSY
- OT
- PT
- Nurse
- VI
- APE

te: Team members that are already tracked in the system should be added using the 'Find & Link Member' tool. Team Members added through this interface will not appear in that user's caseload.

## Viewing the Caseload

Path: [Student Information](#) > [Special Ed](#) > [Caseload](#)

In order to create a caseload, you must first assign yourself the role of Case Manager or Service Provider in the Team Members Tab.

(Use the instructions under the Assigning Roles in Infinite Campus section.)

Selecting the student's name in the Navigation Pane on the left or selecting the folder on the right will take you directly to the Documents tab. Selecting the student's name on the right will take you to the Summary tab.

Procedural Safeguards
<input type="checkbox"/> Parent/Guardian attended via telephone conference.
<input type="checkbox"/> I have received a statement of procedural safeguards under the Individuals with Disabilities Education Act (IDEA) and these rights have been explained to me in my primary language.
<b>AT LEAST ONE YEAR PRIOR TO REACHING AGE 18, STUDENTS MUST BE INFORMED OF THEIR RIGHTS UNDER IDEA AND ADVISED THAT THESE RIGHTS WILL TRANSFER TO THEM AT AGE 18</b>
<input type="checkbox"/> Not applicable. Student will not be 18 within one year, and the student's next annual IEP meeting will occur no later than the student's 17th birthday.
<input type="checkbox"/> The student has been informed of his/her rights under IDEA and advised of the transfer of these rights at age 18.

- A copy of the procedural safeguards must be provided to the parent at least once per year. (§300.504(a)) However, during the IEP meeting these rights should be explained to the parent. After the parental rights have been explained, ask the parent to check the Second box and sign the form.
- Check the appropriate box to indicate whether the student has been informed of the transfer of rights that will occur at age 18. (§300.320(c)) This process must occur at least one year prior to the student's 18th birthday. Consequently, if the student is 16 at the time an IEP is being developed, and there is no expectation that another IEP meeting will be held prior to the student turning 17, the rights transfer must be discussed when the student is 16; otherwise, it will not be discussed at least one year prior to the student's 18<sup>th</sup> birthday.

## Present Levels (PLAAPF)

### Sequence

Use this field to sequence the order of Assessments listed. Use the form *Student Services Division Student Education Management Systems Present Levels of Academic Achievement and Functional Performance Sequence List*.

Click [here](#) to go to that form.

The screenshot shows a form titled "PLAAPF Assessment" with the following sections:

- \*Sequence #**: A text input field.
- \*ASSESSMENT CONDUCTED**: A text input field.
- \*ASSESSMENT RESULTS**: A large text input area.
- \*EFFECT ON STUDENT'S INVOLVEMENT AND PROGRESS IN GENERAL EDUCATION CURRICULUM OR, FOR EARLY CHILDHOOD STUDENTS, INVOLVEMENT IN DEVELOPMENTAL ACTIVITIES**: A large text input area.

### Assessment Conducted

Write the name of the assessment that provides pertinent information for the development of the IEP. This may include formal or informal methods, norm or criterion referenced tests, classroom observations, student work samples, teacher-made or other achievement tests, recent evaluations, behavior rating scales, performance data from regular education teachers, parental input, etc.

### Assessment Results

Describe the assessment results corresponding to the assessments conducted. Build a profile of the student's current abilities.

### Effect on Student's Involvement and Progress in the General Education Curriculum or, For Early Childhood Students, Involvement in Developmental Activities

Describe how the student's disability affects his or her involvement and progress in the general curriculum. For early childhood students, focus on the student's involvement in appropriate developmental activities. Information recorded here should relate to the assessment results. In describing the student's current and anticipated level of participation in the general curriculum, consider the following:

- If the student is currently participating in regular education classes, the regular education teacher(s) must be consulted regarding the student's performance relative to the classroom expectations. The regular education teacher(s) should share information regarding the accommodations, modifications, or supports that are currently being provided or might be required in order for the student to participate meaningfully in the general curriculum.
- If instruction in the general curriculum is being provided in a resource or self-contained setting, regular education teachers should be consulted regarding curriculum content and achievement level expectations. If the student has not participated in the general curriculum due to the nature and severity of his or her disability, information about the student's performance in applied academics, functional academics, vocational skills training, and other alternative programs will also be useful to the team.

## Strengths, Concerns, Interests, and Preferences

**Strengths, Concerns, Interests, and Preferences**

**\*STATEMENT OF STUDENT STRENGTHS:**

**\*STATEMENT OF PARENT EDUCATIONAL CONCERNS:**

**\*STATEMENT OF STUDENT'S PREFERENCES AND INTERESTS:**  
*(required if transition services will be discussed, beginning at age 14 or younger if appropriate)*

**If student was not in attendance, describe the steps taken to ensure that the student's preferences and interests were considered**

### Statement of Student Strengths (§300.324(a)(i))

Formulate a statement of student strengths to capture key information that can be utilized in developing goals and objectives. A student's strengths are revealed through assessments, observations, and other data; strengths are also revealed through input from parents, teachers, and others who have worked with the student. Input from the student is also important in reflecting strengths.

### Statement of Parent Educational Concerns (§300.324(a)(ii))

Complete the statement to reflect the parents' concerns as they relate to the student's educational success. This information should be taken into consideration when determining IEP services.

### Statement of Student's Preferences and Interests (§300.321(b)(2))

Write a statement of student's preferences and interests if transition services are being discussed, beginning when the student is 14 or younger if appropriate. This information may be collected before the meeting or solicited from the student during the meeting. If transition will be discussed at the meeting, the student must be invited. (§300.321(b)(1)) Also, the written notice of the IEP meeting must specify that transition services will be discussed and that the student is being invited. (§300.322(b)(i)) If the student was not in attendance, document the steps taken to ensure that the student's preferences and interests were considered.

Describe the anticipated course of study the student will be pursuing (such as participation in advanced placement courses or a vocational education program) that will promote movement to postsecondary goals. In completing this section, focus attention on how the student's educational program can be planned to help the student make a successful transition to his/her goals for life after secondary school. Consider the relationship of the course work selected to the student's preferences and interests [described in the vision statement and statement of measurable postsecondary goals] as well as present levels of academic achievement and functional performance. As indicated on the form the student's course of study is to be determined beginning at age 14 or younger if determined by the team.

### Statement of Measurable Post- Secondary Goals (§300.320(b)(1))

- Measurable postsecondary goals must be written, at a minimum, for Training/Education and Employment.
- The descriptions reflect what the student wants to do after high school—the descriptions are measurable if the accomplishment of the postsecondary goal could be verified at some point in the future (e.g., whether or not a student obtained employment as an electrician.)

### Instruction

Instruction is the use of formal techniques to impart knowledge. It is typically provided in schools (e.g., regular education classes, academic instruction, tutoring arrangements, etc.). Instructional activities may be provided by various entities or in other locations (e.g., adult basic education, 2+2 programming, and post-secondary schools).

## Related Services

Enter services necessary to assist the student to benefit from specially designed instruction.

Describe areas where related services are being provided that support attainment of postsecondary goals. E.g. (RS in counseling supports positive student: peer interactions and positive student: adult interactions)

## Community Experiences

Community experiences are those services provided outside of the school building, in the community settings, or perhaps by schools or other agencies (e.g., community-based work experiences, job site training programs, banking, shopping, transportation, community counseling, recreational services, independent living centers, adult service providers, etc.).

## Employment and Other Post-School Adult Living Objectives

Employment and other post-school adult living objectives are services that lead to a job or career. The objectives may also include adult activities that are done infrequently, such as registering to vote, doing taxes, renting a home, accessing medical services, SSI, filing for insurance, etc. The school or other entities could provide these activities.

## Acquisition of Daily Living Skills and Functional Vocational Evaluation

Daily living skills are those activities adults do every day (e.g., preparing meals, budgeting, maintaining a home, paying bills, caring for clothes, personal grooming etc.). The school or other entities could provide these activities.

Functional vocational evaluation is an assessment process that provides information about job or career interests, aptitudes and skills. It may be gathered through situational assessments, observations, or formal measures. It should be practical. Schools or other entities could provide these activities.

## Other

Use this area to add any other Agency involvement with the student (Optional).

**\*Note: The above options must be addressed but can state, "None needed."**

### Measurable Annual Goal (§300.320(a)(2))

- Annual goals are developed for each area of need identified by the IEP team in the PLAAFP; STRENGTHS, CONCERNS, INTERESTS, AND PREFERENCES; and the STATEMENT OF TRANSITION SERVICES.
- There is a one-to-one correspondence between identified need, current performance level, and annual goal. Annual goals represent the IEP team's estimate of what the student can reasonably be expected to accomplish with specially designed instruction or support during the next 12 months. Annual goals reflect the IEP team's judgment, based on current levels of performance, potential for learning, and rate of development, regarding what the student should accomplish. The team answers the question, "With specially designed instruction, what do we expect the student to do or know at the end of the next 12 months?"
- Goal statements should have five parts: **\*Note: State Name of Deficit Area First.**
  - Direction of the behavior (e.g., increase, maintain, decrease;)
  - Area of need (e.g., reading, social skills, communication;)
  - Level of attainment or success (e.g., to grade level, with 100% accuracy, or as appropriate for a typical six-year-old;)
  - How progress toward the annual goal will be measured
  - As implemented / supported by
- The measurable annual goals should relate to meeting the student's needs that result from the student's disability to enable the student to be involved in and progress in the general curriculum and meeting each of the student's other educational needs that result from the student's disability.

- Beginning not later than the first IEP to be in effect when the student is 16, the IEP must include measurable goals that support the student's postsecondary goal(s) in the areas of training/education, employment, and (as appropriate) independent living skills. Check applicable boxes to indicate the areas addressed.
- If an IEP team determines that a student will receive Extended School Year (ESY) services, check applicable boxes to indicate the goal(s) to be addressed during ESY.

**STATEMENT OF TRANSITION SERVICES: COORDINATED ACTIVITIES (§300.320(b)(2))**

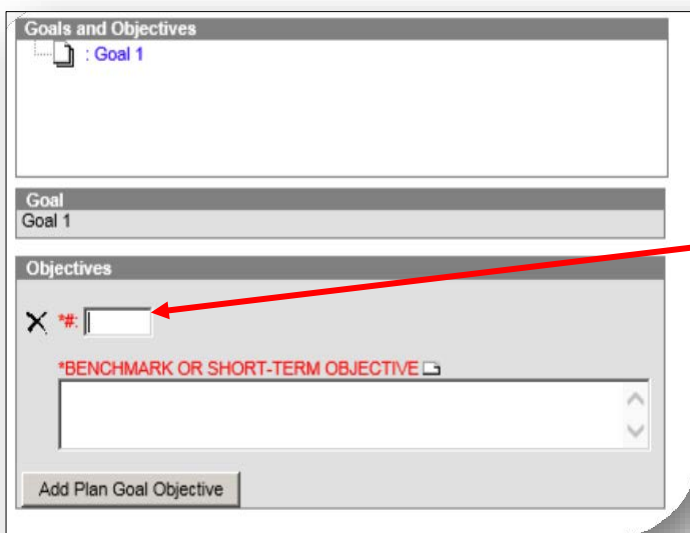

- Write a statement of transition strategies or activities to work toward the measurable postsecondary goals already identified. The statement must address each type of coordinated activity: instruction, related services, community experiences, the development of employment and other post-school adult living objectives; and, if appropriate, acquisition of daily living skills and a functional vocational evaluation.
- Develop measurable annual goals and benchmarks or short-term objectives in the IEP for each strategy or activity the district will provide.
- Consider the following information entered in the [Transition Services editor](#).

**Benchmarks or Objectives**

Select the goal for which you want to create objectives

**Sequence** - Use this field to sequence the order of Objectives listed.

**Number the Sequence in the order you want your objectives to appear.**

**BENCHMARK OR SHORT-TERM OBJECTIVE (NAC §388.284.1(b))**

Each annual goal must include either benchmarks or short-term objectives.

- **BENCHMARK** IEP teams may develop benchmarks, which can be thought of as describing the amount of progress the student is expected to make within specified segments of the year. Generally, benchmarks establish expected performance levels that allow for regular checks of progress that coincide with the reporting periods for informing parents of the student's progress toward achieving the annual goals
- **SHORT-TERM OBJECTIVE** Alternatively, IEP teams may develop short-term objectives that generally break the skills described in the annual goal down into discrete components.
- To Add another **Benchmark or Objective**, Select **Add Plan Goal Objective**, Select **Save**.

Science when determining how a student will participate in the Nevada Proficiency Examination Program (NPEP). In order to facilitate informed and equitable decision making, IEP teams should answer each of the following questions when determining whether or not a student should participate in the NAA:

**Questions to Guide the Decision-Making Process to Determine Whether a Student Participates in the Nevada Alternate Assessment**

- Yes  No Is the student receiving services under the Individuals with Disabilities Education Act (IDEA) through a current IEP?
- Yes  No Does the student demonstrate cognitive ability and adaptive behavior that limits full participation in the general education curriculum and state-wide assessments even with supplementary aids, accommodations, and modifications?
- Yes  No Does the student require substantial modifications, adaptations, or supports to meaningfully access the grade-level content?
- Yes  No Does the student require intensive instruction to acquire, maintain, and generalize skills necessary for application in school, home, work, and community settings?
- Yes  No Is the student's level of educational performance not primarily the result of specific learning disabilities; social, cultural, economic, or language differences; visual or auditory impairments; emotional-behavioral disabilities; or excessive or extended absences unrelated to the student's disabilities?
- Yes  No Has the IEP team informed the parent/guardian of the consequences of the student participating in the Nevada Alternate Assessment (e.g., modified diploma vs. standard diploma) and of being judged against alternate achievement standards?"

If the IEP team determines that **all six questions** accurately characterize a student's current educational program, then the **Nevada Alternate Assessment** should be used to provide a meaningful evaluation of the student's current academic achievement. If "yes" is not indicated in all six areas, then the student should participate in the general assessment with or without accommodations.

Answer the 6 questions and write a statement of why the student cannot participate in the regular assessment.

\*If the student will participate in an alternate assessment, explain why the student cannot participate in the regular assessment, and why the particular alternate assessment selected is appropriate.

## Appendix

### Ad Hoc Descriptions

**BEH - Special Ed Removals** – This filter displays the number of days active special ed students have been removed from school. It tracks the days out from all of the schools the student attended that school year.

**SPECPRO – Accommodations (Active)** – This filter displays the following information for active special ed students: basic demographic information, Case Manager Name and Start Date, IEP Start and End Date, the Program the student is in and the accommodations in the last locked IEP. The information displayed comes from an IEP Plan that is active at the time the filter is run. If there is more than one entry for a student, it could be for the following reasons: more than one plan that is active at the time the filter is run (overlapping plans) or there is more than one active Case Manager.

**SPECPRO - IEP Plan and Eval Due Dates** – This filter displays the following information for active special ed students: basic demographic information, Disability, IEP Start and End Date, Eval and Re-Eval Start and End Dates, IEP locked or not, type of meeting, Case Manager and Program. The information displayed comes from an IEP Plan that is active at the time the filter is run. If there is more than one entry for a student, it could be for the following reason: more than one plan that is active at the time the filter is run (overlapping plans) or there is more than one active Case Manager.

**SPECPRO - IEP School Nurse Services** – **This report may take a few minutes to populate.** This filter displays the following information for active special ed students: basic demographic information, LEP Status, Disability, IEP Start and End Date, Eval and Re-Eval Start and End Dates, IEP locked or not, Related Services for School Nurses, Type of Meeting, ESY, Case Manager and Program. The information displayed comes from an IEP Plan that is active at the time the filter is run. If there is more than one entry for a student, it could be for the following reasons: more than one plan that is active at the time the filter is run (overlapping plans) or there is more than one active Case Manager. - Any identified underachievement is not primarily the result of a visual, hearing or motor disability; mental retardation; emotional disturbance; cultural factors; environmental or economic disadvantage; or limited English proficiency.
- There is documented, data based evidence that any identified underachievement is not due to a lack of appropriate instruction in math or reading. This determination is based upon each of the following:
  - Data that demonstrate that prior to, or as part of, the referral process, the pupil was provided appropriate instruction in regular education settings, delivered by qualified personnel; and
  - Data based documentation of repeated assessments of achievement at reasonable intervals, reflecting formal assessment of the pupil's progress during instruction, and which was provided to the pupil's parents.
- The controlling factor for the pupil's eligibility is not lack of appropriate instruction in math.
- The controlling factor for the pupil's eligibility is not lack of appropriate instruction in reading, including the essential components of reading instruction. Explicit and systematic instruction has been provided for each of the following:
  - Phonemic awareness
  - Phonics
  - Vocabulary development
  - Reading fluency, including oral reading skills
  - Reading comprehension strategies
- Interventions implemented in general education classrooms have not remedied any identified underachievement.
- The following relevant behavior was noted during the observation of the pupil:

**ADDITIONAL CRITERIA FOR ELIGIBILITY:**

**Additional Criteria for Response to Intervention:**

- The pupil has not made sufficient progress to meet age or State-approved grade-level standards in one or more of the areas identified above (oral expression, listening comprehension, mathematical calculation, mathematical problem solving, written expression, basic reading skill, reading fluency skills, reading comprehension) when using a process based on the child's response to scientific, research-based intervention.

  - Any identified underachievement is not correctable without special education services.
  - On (date) \_\_\_\_\_ the pupil's parents were notified about Nevada's policies regarding the amount and nature of student performance data that would be collected and the general education services that would be provided; strategies for increasing the child's rate of learning; and the parents' right to request an evaluation.

AND/OR

**Additional Criteria for Comparative Analysis:**

- The pupil exhibits a pattern of strengths and weaknesses in performance, achievement, or both, relative to age, State-approved grade-level standards, or intellectual development, that is determined by the group to be relevant to the identification of a specific learning disability, using appropriate assessments.
- The pupil exhibits a severe discrepancy between achievement and intellectual ability in one or more of the areas identified above (oral expression, listening comprehension, mathematical calculation, mathematical problem solving, written expression, basic reading skill, reading fluency skills, reading comprehension).
  - The severe discrepancy has been determined through the use of a statistically valid formula which takes into account the age and level of ability of the pupil, the correlation between tests of ability and achievement, and the reliability of each test used. In the case of a pupil under the age of 6 years, a discrepancy may be identified through the use of one or more tests of language concepts or academic readiness skills.

OR

- In considering the continuing existence of a severe discrepancy between achievement and intellectual ability in a reevaluation of the pupil, the determination of a severe discrepancy has been made based upon information other than the statistically valid formula.
- The severe discrepancy is not correctable without special education services.
- The severe discrepancy is corroborated by classroom-based assessment.

**Additional Information (Optional):**
